

NOTE TO THE READER ABOUT NEGRI'S LE GRATIE D'AMORE

This PDF document was made to preserve the owner's annotations. An online facsimile copy does exist, although its quality is not much improved. You may find it at this URL:

<http://www.pbm.com/~lindahl/negri/facsimile/>

It does offer a better breakdown of the contents into parts.

A note must be made here about the pagination, as it might seem that pages have been missed or added in the scanning process at first glance, but this is not the case.

The pages jump from 258 to page 261, and then back to page 260, with another page 261, which is unique, showing up with pages 262, 263, and an unpaginated plate, and then, 265.

This happens again when it jumps from page 288 to 293, and then to page 290, where it picks up and moves on to another page 293, which is unique, and then to 294... .

There is an online article "Differences Among Different Copies and Editions of Negri's Dance Manuals" available at this URL:
